NEW

Switch over to climate protection.

Clever direct replacements for incandescent lamps: Energy savings up to 30% with HALOGEN ENERGY SAVER.

SEE THE WORLD IN A NEW LIGHT

OSRAM

Brilliant energy-saving alternatives.

Thanks to the new ENERGY SAVER halogen lamps from OSRAM high quality of light and energy savings are no longer mutually exclusive. You can enjoy brilliant modern halogen light – and make an active contribution to climate protection at the same time.

HALOGEN ENERGY SAVER with E14/E27 screw bases offer energy savings of up to 30% compared with ordinary light bulbs – and last twice as long. HALOGEN ENERGY SAVER lamps are available in classic bulb or candle shapes (frosted or clear) and as spotlight lamps for simple direct replacement of your ordinary light bulbs.

Standard light bulbs
